

Fly Odyssey Australia and Gladstone Fly and Sportfishing – are providing an exciting fly fishing travel adventure in support of Casting for Recovery Victoria. Fly fish the expansive flats of Gladstone, Queensland one of Australia’s best kept saltwater fly fishing experiences. Chasing Permit, Golden and Giant Trevally, Longtail Tuna, Queenfish and Barramundi, you will be in good hands both on and off the water. With little pressure, and clear water it offers great sight fishing opportunities throughout the year and is a great winter escape with temperature in August in the mid-20’s.

Includes: Return domestic flights from Melbourne to Gladstone Queensland with Qantas Airways, 3 night’s accommodation at Tannum Sands holiday park, and two days fully guided fly fishing charter with Gladstone Fly and Sportfishing, for one angler. Also included is a Fly Odyssey flats cap and pre-trip guide (subject to availability, offer expires 30th June, 2020).

Excludes: Meals and Beverages (unless specified), items of a person nature, gratuities, airport transfers, fly fishing gear.

GLADSTONE, QUEENSLAND

Situated at the Southern end of the Great Barrier Reef system, Gladstone is one of Queensland’s best kept secrets, with beautiful beaches, coral reefs, myriad of islands and sand cays, national parks and a largely undeveloped coastline. The barrier reef and islands have created an extensive flats system with Permit, Longtail Tuna, Herring, Queenfish, Golden and Giant Trevally all available on fly.

With plenty of accommodation options in Gladstone and along the coast. You can enjoy your time off the water in the bustling city, Queensland’s largest multi commodity port, or take day trips to the beautiful Herron and Lady Musgrave Islands to snorkel the Great Barrier Reef during an extended stay in the region. Inland, Lake Awoonga is one of Queensland’s premier Barramundi impoundments which can also be targeted with your guide including the numerous coastal rivers with Barramundi to over a meter in length not uncommon. While just south of Gladstone is the stunning Agnes Waters and town of 1770, with good beaches surf breaks and stunning coastal walks.

FLY FISHING GLADSTONE

Gladstone has a good range of fly fishing options, and probably best known for the local population of Permit, Queenfish, Golden Trevally and Barramundi available both in the deeper channels and flats to the inland lakes and river mouth systems. Longtail Tuna and Giant Trevally are also common in the winter months. This variety means that if the saltwater conditions are not ideal on the flats, then you can fish the impoundments and rivers for the opportunity to catch Barramundi in excess of one meter in length. The typical size of the Barramundi in Lake Awoonga and local rivers are around 70cm, which provides great sport and aerial acrobatics on fly. Gladstone Fly and Sportfishing captain Justin Nye has over 20 years of fly fishing experience in the region and provides a great day out on the water with personalised transfers and airport drop-offs if required. He also readily takes our clients on short tours of the region when not on the water, and is a wealth of knowledge when it comes to the wilderness, local fish management programs and community fly fishing competitions in the region. Typical days are 8am-4pm, from the comfort of his custom fit Sportfishing vessel with casting deck and electric fitted. Includes return transfers, lunch and refreshments and loan fly fishing gear if required.
